

Hello All, Greetings from Zephyrhills,

Here are the Highlights of the August 21, 2017 Preliminary Meeting of ZAARC.

The meeting was called to order at 7:05

There were 6 members present, not enough for a quorum. So we went through the motions of a regular meeting but didn't really decide anything or make any changes.

Officers present were the VP and Secretary. Gerry Wb8gky and Scott Ab1mc respectively.

The President John Kk4itx and Treasurer Charlie Ke7uth were both out of town.

### **Old business:**

We have currently switched banks from Wells Fargo to the San Antonio Federal Credit Union. Seems to be working out well, and will cost the club alot less in fees.

Field Day, we as a club didnt do anything for field day, although the EPARS club but in a valiant effort.

There is always next year, Hopefully we can get the club built up again and do it up good in 2018

The repeater is still on the air. Currently it is still at the Lions club and is operational. According to the Freq. Co-ordination website the county of Pasco has till Sept. 31 (30<sup>th</sup>) to put a repeater on the Air on 147.135 or the control of the frequency reverts to ZAARC

We couldn't really have new business so we just discussed issues that relate to the club. Here are the Highlights:

Repeater, members have suggested we move the equipment from the Lions club to other sites, since we are not providing a service to the Lions club anymore ( parking cars for their functions). Phil's (K4pjs) name was mentioned as one of the sites, maybe a test run is in order to see if it fits.... Also there was a suggestion to leave it at the Lions club and just pay them rent for the space and electricity used ( small amount), it is also a good public service for them to be a part of.

also if the County ever takes 147.135 freq. we need to come up with an alternative freq. we can use for our local club repeater. any suggestions?

Hamfests in the area:

Lakeland ARC is haveing one on Sept. 9th

The Sun coast ARC is having theirs on Sept. 23rd

We talked about the need to pay for the meeting site. The church requested some sort of a donation.20.00 per?? We could come up with an amount and then pay them in one lump sum once a year. This would cover the use of the hall once a month and the use of the whole church once a year for our hamfest on March 3rd. we have the opportunity to use the hall more often as long as it is available.

We discussed the need to have presentations at meetings so as to get more people interested in attending the club meetings, would also be nice for public outreach. We could have the business meeting before the main event. also it was suggested that we have differing levels of Knowledge of Ham radio so the Presentations are not always too technical or too basic. We need to meet the needs of

a much varied group as far as Knowledge of Ham radio goes.

Toward the end of the discussion we had an illustrious visitor! Ralph McCullough Wa3yfq. The new ARES coordinator for Pasco County, He is also the Skywarn Coordinator. He drove all the way from New Port Richey just to attend our little meeting. Lots of info especially about repeater plans

Ralph has a lot of work to do so lets give him all the help we can..WELCOME Ralph

Remember we all meet at Mikes Smoke House on 7th Ave in Z-Hills at about 7:45 to 8 AM on Thursday Morn.

Meeting was adjourned at 8:10 PM

Hope this meets with all your approval, as always if you have any Q's let me know

## Disclosures

Loan number(s) followed by an asterisk (\*) are open end credit accounts. With regard to those accounts, the balance subject to interest rate (shown in the "Balance" column) is the unpaid balance each day after credits are subtracted and the new advances or charges are added. The Finance Charge is computed on the daily outstanding balance by applying the daily periodic rate to the balance for the exact number of days such balance remains outstanding. The outstanding balance is shown in the columns marked balance and the daily periodic rate is disclosed after the account number. The ANNUAL PERCENTAGE RATE, which is determined by multiplying the Daily Periodic Rate by the number of periods in the year (365), is likewise disclosed after the account number.
