

ZAARC Net Control Preamble

Welcome to the Monday night ZAARC 2 meter net.

Your net control operator for this session is (Call & Name).

This is an informal **directed net** to advance the hobby of amateur radio by facilitating the exchange of ideas among area amateurs and to provide a forum for questions and answers.

As our repeater is designated as a RACES repeater, this net also allows us to practice for net operations in case an emergency ever arises.

Priority is always given to stations with emergency traffic.

Please check in with your Call phonetically followed by your name and QTH.

If there are any stations with emergency or priority traffic please check in now. **Pause for responses and pass any traffic.**

Are there any portable, battery operated or short time stations? Please check in now. **Pause for responses then allow short timers to comment.**

Are there any Echo-Link stations please check in now. **Pause (Echolink Delay 5-7 sec)**

We will now accept check-ins from any station whose suffix begins with the letter **A** through **H**, please check in now. **List stations**

All stations suffix **I** through **Z** please check in now. **List stations**

General announcements, Comments from the President and other VIPs

We will start at the top of the list with _____ , what do you have for us this evening?

Continue through the List and at the end of the first round ask for late or additional check-ins.

Allow any additional stations to give their comments, and then proceed to the second round.

After the second round repeat any important announcements, ask for any final comments and when all final comments are completed close the net.

This concludes the Monday ZAARC 2 meter net for (DATE) at (TIME). The repeater will now resume normal Amateur Radio use.

Note: The Preamble above is only a suggested format. As Control Operator you can adjust this or use your own.

Thanks to Charles Nelson (KE7UTH) for his help with this document.
