

Amateur Radio Equipment

James Kelley, W9OQL

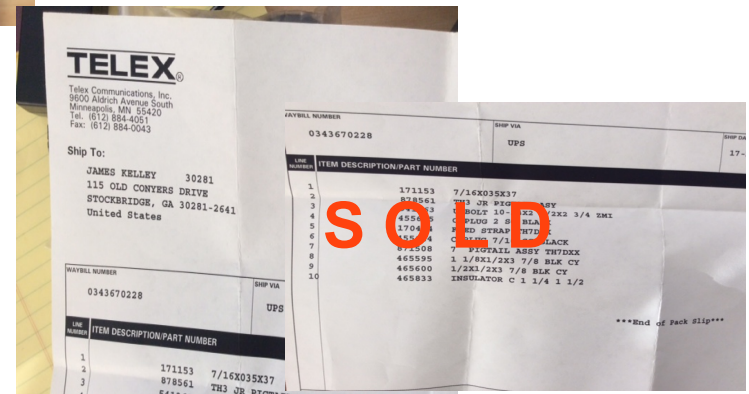

- Jim has been facing medical issues and has quite a collection of items many of which have never been out of their boxes, others have been used but cared for and the rest regular Hamfest material.
- Due to the lack of Hamfests and the quantity and weight of the items we have decided to have appointment viewings by interested parties on at least the larger stuff. The balance might show up at the next fest(s).
- Jim and Linda have relocated to Emerald Pointe permanently and since we have now a full time gate and limited parking, appointments will be required outside of any published dates of showing. We can only have one, possibly two extra cars at a time..... please understand our limits.
- I am helping Linda as I would help your spouse to dispense of your items at as fair a price as is possible for both parties..... at no charge and no expense to the buyer or seller.
- **TERMS:** Cash, known Good Check, non-refundable downpayment agreement and all sales as shown, seen and final.

- Reasonable offers accepted

- **Shown by appt. only.. Contact John Leahy, KK4ITX@arri.net**
